

LNL Group: Terms of Service

Last Updated: January 8, 2026

By engaging with **LNL Group**, you agree to the following terms governing our **Growth Architecture** services.

1. Services Provided

LNL Group provides strategic consulting, creative asset extraction (**LNL Creative**), and automated system builds (**LNL Automations**). Each project is governed by the specific **Service Tier** (Concierge, Engine, or Enterprise) selected during activation.

2. Intellectual Property

- **Mined Assets:** Any creative content produced specifically for the Client (e.g., social posts, website copy) belongs to the Client upon final payment.
- **The Framework:** The underlying "Logic," custom n8n workflows, and proprietary AI prompting structures created by LNL remain the intellectual property of LNL Group. Clients are granted a non-transferable license to use these systems for their internal operations.

3. Client Responsibilities

To maintain **Luxury** standards, Clients must provide timely access to assets via **The LNL Vault**. Delays in asset delivery may result in a "Logic Stall," delaying the project timeline.

4. Fees & Investments

Service Tiers are billed as recurring monthly investments. LNL Group requires 30 days' notice for the cancellation of any **Engine** or **Enterprise** tier services to allow for the safe decommissioning of automated systems.

5. Disclaimer of Results

While our **Mechanical Heart** systems are designed to maximize efficiency and prestige, LNL Group does not guarantee specific revenue targets. Growth is a collaborative architecture between LNL logic and Client execution.
